

## My Younger Daughter and Two Astronauts

Here is a photo of my younger daughter Shannon and then astronauts Chris Hadfield and Julie Payette.

This is an old photo taken in 1999 at the Cold Lake Military Base Airshow. The weather was terrible with rain and low clouds. At the time the photo was taken there were few people in the hanger so there was a brief time to chat. Chris Hadfield seemed like a cool dude but Julie Payette at the time seemed a little stressed. Julie Payette is now the Governor General of Canada.

The jet in the background is a T-38.
